 154 x 42

128 133 139 146 154

### PERFORMANCE CHARACTERISTICS

- The Haze is an affordable twin tip range developed for all levels of rider
- Range includes five models, from 128 to 154, covering the performance needs of almost all sizes and styles of riders
- The 2006 Haze offers more power and solid tracking with enough flex to still be easy to ride

### WHAT'S NEW IN DESIGN

- The shaping is completely redesigned for 2006 but still utilizes the same scoop rockerline and tapering thickness flow for a similar flex from the 2005 Haze
- Fin placement is closer to ends and rails for increased power and performance
- The outline is more parallel for easier and more solid tracking when on edge
- Overall lengths are shortened to balance the increased power with ideal control

### WHAT'S NEW IN CONSTRUCTION

- Slider-Proof Protective Bottom added for uncompromised durability
- High Visibility Graphics added for safety and high impact
