

NAISH

Kite Pro Seat Harness

SIZES: XXS, XS, S, M, L, XL

PERFORMANCE CHARACTERISTICS

The Naish Kite Pro Seat Harness is a new design that allows for an efficient seat position which is stabilized through the ergonomic seam shape that is manufactured into the lower part of the harness. With its adjustable 8 point load spread it reaches a maximum of efficiency, transferring the kite's power directly into your legs and onto the board.

- Designed for comfort and efficiency
- Pre-shaped panel design for perfect fit
- Medium-high back support

WHAT'S NEW IN DESIGN

- Ergonomic 3D seam shape
- 8 point power transfer
- Various adjustment options to fit any body shape and riding position

SPECIAL FEATURES

- Neoprene back edge for optimized comfort
- Heavy duty rings for leash connection
- Pro Limit quick release spreader bar technology and new specifically designed seat harness bar pad
- Heavy duty back handle
- Reinforced spreader bar webbing
- Newly designed bar pad with quick release buckle connecting the bar to the harness
