

TECHNICAL FEATURES

COMPLETE PACKAGE

The Naish Sol comes with:

- 2 Adjustable carbon plate, 3-D molded footpads
- 2 Restyled adjustable footstraps
- 1 Grab handle
- 4 Alloy-composite 5.7 cm fins
- Mounting hardware

SIZES: 124 x 37.5
127 x 38.5
130 x 39.5
133 x 40.5
136 x 41.5

For 4 years our team has been competing and freeriding exclusively on our production gear, resulting in great benefits to our products. Their talent, vision and energy has gone into every factory prototype and the results are early planing, speed, upwind bite, solid tracking, explosive pop, power on demand, critical control, strength and light weight.

PERFORMANCE CHARACTERISTICS

- The 2006 Naish Sol is a premium twin tip range developed for top level riders
- The 2006 Sol combines a refined design concept similar to the 2005 Sol, but with a completely new construction technology for unparalleled performance
- Although the performance demands were driven by professional team riders, intermediate level riders will equally benefit from these same riding attributes

WHAT'S NEW IN DESIGN

- The range expanded to five models with less size difference between the boards so the rider can fine tune their choice to perfectly suit their style
- 10% lower scoop rocker line for reduced drag and locked-in tracking on edge
- 1 cm width added per length of board with radial concave bottom shape for earlier planing, increased pop and range
- 3-D graphics

WHAT'S NEW IN CONSTRUCTION

- Newly developed laminates and measurement systems to precision tune the degree of flex at specific locations on the board
- Composite I-Beam core for new standards in strength and weight
- New developed shock-reflex technology locks in edge for choppy water, super fast landings and ultra-positive performance
- Slider-Proof Protective Bottom and ABS Rails
