

NAISH

VECTOR

SIZES: 79, 88, 100, 106, 116

The Naish Vectors are the most versatile boards on the market. They are the ATV's of windsurfing, performing in everything from flat water to waves. Each board is optimized for the widest possible range of use and conditions, with the 2 smallest boards focused on onshore wave and "bump and jump" sailing, and the larger sizes dedicated to maximum freeride performance. The Vector is always the right solution, no matter where you are or where you go.

79 88 100 106 116

PERFORMANCE CHARACTERISTICS

- Early planing and good acceleration
- Designed to adapt to various conditions and rider styles
- Great new look and Naish quality
